Medical devices that speak the language of the users.

STICK & STOP ANTI-SLIP MESH

- Anti-slip mat for more safety and grip
- Simple to use and at the same time enormously helpful

- Helps to sit patients up straight in the hospital bed
- Prevents them from slipping down, e.g. in a wheelchair, bed and armchair

- Anti-slip surface

HOW TO SELL

Icebreaker: Questions to ask your customers

- How do you currently prevent patients from slipping down in a bed or wheelchair?
- Are there situations in which patients are not lying or sitting in a stable manner despite positioning aids?
- How much time does your team need for repositioning patients?

Target group: This is where the Stick & Stop anti-slip mesh is needed

Intensive Care Unit | Care | Geriatrics | Rehabilitation

Benefits: for clinics and clinic staff

- Greater safety
- Less restocking
- Relief for nursing staff

The Stick & Stop anti-slip mesh can be ordered on request.
